DETAILED ACTION

Allowable Subject Matter

1. Claims 59-62, 65-76, 112-114, 117-127, 128-130 and 133-143 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding Independent Claims 59, 112 and 128, the claims have been amended to overcome the previous rejection. The closest prior arts Laflin and Detlef, either singularly or in combination, fail to anticipate or render obvious that provisioning a user interface of a wireless communication device, or doing so based on the identified class of contact identifier in a received message, to allow initiation of a task relating to the contact identifier; where the provisioning includes determining information to be output by an output component of the wireless communication device; where the user interface is configured in a first configuration if the contact identifier belongs to a first class of contact identifier, and the user interface is configured in a second configuration if the contact identifier belongs to a second class of contact identifier, as argued by Applicant in Applicant's Remark filed 06/27/05 (see page 13).

Claims 60-62 and 65-76 depend on claim 59. Therefore, they are allowed.

Claims 113-114, 117-127 depend on claim 112. Therefore, they are allowed.

Claims 129-130 and 133-143 depend on claim 128. Therefore, they are allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
